

Strapless N95 Face Masks

Innovative Design. Secure Fit. Gentle Comfort. Designed for Easy Use.

Avery Dennison Medical has partnered with Global Safety First (GSF) to help bring an innovative mask technology to the healthcare market. The NIOSH-Certified Strapless N95 face masks use a special air-purifying filter media and a hypoallergenic medical adhesive at the perimeter of the mask to filter more than 95% of particles. The mask utilizes an innovative strapless design that provides a complete perimeter seal with security and protection.

NIOSH-Certified Strapless N95 face masks offer:

- **Security and Protection:** Forms an air-tight seal while allowing filtration during inhalation and exhalation
- **Innovative Design:** Self-adhesive material eliminates tight elastic straps and ties that put pressure on the face or get caught in hair
- **Breathability:** Made with electrostatic particle filtration properties that make the masks more breathable
- **Gentle Comfort:** Skin-friendly adhesive that adheres gently to the face

The Strapless N95 face masks are virtually weightless, convenient and designed for easy use. The self-sealing design eliminates uncomfortable metal nose clips and tight elastic straps.

Device is available under EUA per FDA Guidance Enforcement Policy for Face Masks and Respirators During the Coronavirus Disease (COVID-19) Public Health Emergency (May 2020).

Global Safety First, LLC. NIOSH Approval# TC-84A-8133

Features

- Medical grade materials and adhesive
- NIOSH N95 Certified
- Historical ASTM reports available upon request
- Avery Dennison Medical is pursuing FDA 510k clearance for the Strapless N95 mask

May help provide protection where the following are present:

- Viruses
- Bacteria
- Debris
- Aerosols
- Pollution
- Smoke particles
- Hazardous particles
